POLITICS TO BE SHUNNED.

Supt. Bylicwer has been given full power to employ help by the commissioners. Politics is to be shunned in the board. It has just developed, however, that J. E. McGinty, who is very much of an "American," tried hard during the absence from the city of the other commissioners to have three men discharged on the ground that they were Mormons. His information came from E. J. Williams, gardner for Thomas Kearns, who was on applicant for the position of park commissioner. Supt. Byhower paid no attention to the appeals of McGinty and the natter was not referred to in the meeting yesterday.

Roost ranch, at Eddyville, Neb.

He has just been over to Lodi, Cal., to a reunion of all the members of the party which made the famous trip across the western desert from Salt Lake. It was held Feb. 4, the anniversary of the day they emerged through the mountains, after four of their members had starved to death in Death Valley. There were over 30 in the party, but only four were still alive to hold the reunion of 1908.

Mr. Colton is a cousin of D. D. Colton, one of the builders of the transcontinental railroad. He describes pleasantly his experience in Salt Lake in the summer of 1849, while bound for California. "We got here too late." he said, "to go on through by the northern route, where the Donner Patty had been frozen to death, and we were too early to try the southern route because it was too dry. COOPER PERFORMS MIRACLE AT HUB

The Wonderful Story of Mrs. Weiler of Jamaica Plain.

DOZEN YEARS OF DEAFNESS

Took a Chance and Followed the Crowd to See Young Cooper of Ohio, and is Now Happy.

Boston, February 17. There seems to be no let-up in the tremendous interest that has been aroused in this city and vicinty by L. T. Cooper, the young philanthropist, who is introducing his preparations to Boston people. The remarkable results accomplished by him in the past two weeks are daily becoming more manifest. Some of those who purchased his medicine in the early part of his visit are now calling at his headquarters, the Jaynes Drug Store, 50 Washington Street, to report results.

Yesterday was a record-breaking day, and many present were anxious to tell what Cooper's preparations had done for them. One of these was Mrs. W. Weiler, living at 3567 Washington Street, Jamaica Plain. Mrs. Weiler had previously been treated for deafness, which, according to her story, had afflicted her for tweive years. She can now hear any ordinary conversation. In relating her experience Mrs. Weiler said.

"For tweive years I have been afflicted with catarthal deafness, and heard no word during that time. I have seen many physicians and taken much medicine, but for all the good it did me it might have been so much water. I read a great deal about these Cooper's medicines, but paid little attention to it until I read of a man in Cambridge who had been relieved of catarrhal deafness after twenty years. I then came here and bought the medicine, both for local application and to be taken internally.

"At the end of the week I heard the clock in the dining room tick. I had never heard it before, as we bought it since I became deaf. I also heard street noises and some conversation. Now I can here so much better that I am absolutely astonished. I no longer have head noises, and the dropping in my throat has altogether ceased.

"The New Discovery has also cured my husband of constipation, although he has been taking medicine all his life for it with out relief. He has no trouble of that kind at all since taking the medicines to be perfectly wonderful in what they accomplish."

Statements such as this from sources of unquestioned in

"We finally started west to the San Juaquin valley on a 'fift or miss' sort of a trail. After going southwest for a time, we decided to cut off from the trail, and try it northward. And then it was that we encountered the terrible Death Valley, in which we were lost for quite a time, and finally emerged through the moutains at Lodi.

"We found the borax in Death Valley, and silver mines, but in those days gold was too entirely the quest to bother with little things like borax and silver."

COUNCILMAN HALL SEEMS UNPOPULAR

Has Persistent Way of Inquiring | Preparations Being Made for Into City's Financial Condition.

DISTASTEFUL TO "AMERICANS"

Wants to Know Why Auditor's Report, Due Feb. 3, Has Not Been Submitted-Council Routine.

Councilman L. E. Hall has been trying so persistently to find out the financial condition of the city that he is coming to be looked upon as a nulsance by the financiers of the "American" party. Mr. Hall added to his unpopularity last evening by having a communication from City Auditor Alff sent back to him. Some time ago a resolution of Mr. Hall's was adopted by the council calling upon the auditor for his annual report, for reasons why he had not made his report in compliance with the law, which requires that the report be submitted not later than the first Monday in February. The communication from the auditor last night was to the effect that because of the change from the old to the new way of accounting he was unable to make the report, and that he did not have sufficient help in his office to make

sufficient help in his office to make the report, anyhow.

This communication did not satisfy Mr. Hall. He wanted to know when the council might expect a report. He said they were asked to vote money every week and at the same time they knew nothing as to the financial condition of the city. The treasurer's report, he said, was misleading because it reported \$260. the financial condition of the city. The treasurer's report, he said, was misleading because it reported \$280,000 of a balance in the bank, when as a matter of fact the balance was but \$60,000. He wanted some way of getting at the figures and if the new system of bookkeeping did not furnish this information, then he thought the city better get back to some old way of bookkeeping. He thought the special audit of the city's accounts was no excuse for violation of the law. Assurance was given that the full report would be in in four days.

NO MONEY FOR SALARIES.

Two lively communications were sent to the council by Chief of Police Pitt. One was a demand for the confirmation of the 15 new policemen recently appointed. It was pointed out that much of the residence portion of the city is having no police protection; that the present force is overworked; that some of the men now on the force are sick from overwork. This communication went to the finance committee, as it is understood that the new police officers cannot be put on the payroll until the money is secured from some source to pay their salaries. Two lively communications source to pay their salaries.

CITY WANTS NEW LAWS.

The second communication related to Sunday closing, gambling and the social evil. Chief Pitt demands new ordinances to enable him to cope with these problems. He cited the ordinances of Los Angeles. These permit no person to enter saloons on Sunday for any purpose; they provide for an unobstructed view into the saloons at all times; they prohibit card and wine rooms in saloons; they prohibit booths and boxes in restaurants; they make it easier to convict of gambling in that it is not necessary to see the actual exchange of money. This communication went to the municipal laws committee. Chief Pitt expressed the determination to stamp out gambling and Sunday liquor selling.

LAUGH GOES ROUND.

A laugh went around the council chamber when a communication was read from S. G. Gernert of St. Louis, in which the writer said he understood the city was preparing to issue municipal bonds. He asked the privilege of priating them. It would seem from this that the condition of the city treasury is known as far east as St. Louis, if not further.

CLAIMS LICENSE IS UNFAIR.

W. E. Bray (Kid) who runs a lunch room at 49 east Second South street, sent in a communication protesting against the injustice of the present ordinance regularing the licenses of restaurants and asking for a flat rate. Under the present ordinance, restaurants with a seating capacity of 30 or more persons must pay \$75 tax; those seating between 20 and 30 pay \$40. Mr. Bray holds that these rates are unjust for the reason that a restaurant seating 200 persons pays no higher license than the small ones in his class. The matter will be considered by the license committee.

"There's a Reason"

WILL BE THREE TICKETS IN FIELD

Forthcoming Judicial Conventions.

"AMERICANS" WILL BE IN RACE

Republican Call is Already Out While That of Democrats is in Process of Formation-Possible Caudidates.

From present indications there will be at least three tickets in the field, when the coming judiciary convenare over, the Third judicial district.

As to whether there will be an "American" ticket there has been some doubt, but District Chairman J. E. Darmer, said today when asked about this situation: "While I have not called my committee together, and the matter has not been discussed, still I can say almost with certainty, judging from present party sentiment, that there will be an "American" party judicial convention.

The Republican call for the convention is already out, while the Democrats are planning to put a full ticket crats are planning to put a full ticket in the field, unless a non-partisan movement comes into being. This movement is favored by local members of the Bar association, and opposed by politicians who declare that the heads of the Bar association represent the large corporations, and that this association therefore ought not to have any hold on nominations that would make judges look to it, rather than to the people through their regular conventions.

FAVORS NON-PARTISAN.

FAVORS NON-PARTISAN.

Judge William H. King declared today that he favored a non-partisan convention, with a ticket composed of the best men obtainable regardless of politics and all other matters.

The Republicans are working steadily for the day of judicial nominations. The voting will be in Salt Lake county, Tooele county, and Summit county, and the four judges, Morse, Ritchle, Lewis, and Armstrong, are up for renomination. So far Morse and Ritchle have little or no opposition, and their places are conceded to them by politicians at least. On Armstrong a fight will be made, but he has an organization working for him throughout the section where the votes will be polled. One thing making for Armstrong's popularity is his reputation for giving "stiff sentences" to burglars and criminals such as the business district fears. Judge Whitaker of the city court is mentioned as a possibility for a place against him, and H. A. Smith, of the law firm of Edwards, Smith & Price, is also named as a possible candidate.

Whether Dist. Atty. Loofbourow will

Whether Dist. Atty. Loofbourow will land the renomination is doubtful, and on this office at least one good political fight is preparing for Job Lyon has been out on a long, "still hunt" for the place, and is already well enough entrenched to make it interesting for Mr. Loofbourow. H. A. Smith is also being boosted for the place, as well as for a judgeship.

HILES FOR "AMERICANS."

Ogden Hiles is almost certain to be oggen Hiles is almost certain to be nominated on the "American" ticket as one of the four, but few other names are definitely mentioned as yet.

Among the Democrats Charles Baldwin, at present U. S. commissioner, is almost certain to be named for one of the places, with three places open to a field, none of them yet showing winning colors.

FOR NATIONAL CONVENTION.

Besides the judicial conventions, another set will be due in May or early June. These will be to select six Republicans for the Chicago convention and six Democrats for the Denver convention. In addition the Democrats and six Democrats for the Denver convention. In addition the Democrats will name a national committeeman, the candidates for this place at present being Frank B. Stephens, Joel L. Priest, Judge W. H. King and Judge O. W. Powers. Mr. Stephens and Judge Powers seem to have the larger size booms and the probability is that the final choice will be between them.

PRISON LIFE CHILD'S PLAY.

Deputy Ure Thinks Western Convicts Have Easy Time.

Deputy Warden Ure has returned from

Ohio where he took a prisoner wanted there for burglary, he having just served a term in the Utah state prison for forgey. Mr. Ure took his man to the Reformatory at Mansfield, where first sentence prisoners are tended. forgey. Mr. Ure took his man to the Reformatory at Mansfield, where first sentence prisoners are sent, though this man may be transferred to Columbus on the score of his having been in prison here.

The Utah officer was astonished at the palatial character of the Mansfield prison, where everything is fully up to date. Most of the men are kept at work, while those who are not engaged in manual labor are put through a military drill in the yard. Not only at Mansfield, but at other prisons in the east visited by Mr. Ure, he noted prisoners were not allowed to be at large in the prison yards, and were not allowed to sit around in the cell houses together, smoking and playing various games among themselves. Prisoners are marched from their cells in the morning, to the breakfast table then back to their cells, and thence to the work rooms. At noon they are marched to dinner, and then to their cells until the inside guards have their dinner. They are then marched to the afternoon work, afterwards to their cells, then to supper, and to their cells again. Marching and drilling under guard is all the exercise prisoners receive, outside of the regular daily tasks. Letter writing may be indulged in once in five weeks, and each convict may receive a call from friend or relatives once in about six or eight weeks.

Mr. Ure says prison life in Utah, Wyoming, and some other western states is mere child's play compared with the restricted life in eastern prisons. The principal trouble with convicts in western prisons is to keep them from "dope." In the east, there is no trouble from this source. It is largely due here to so many convicts having served time in California where opium is smuggled in from Asiatic countries, and distributed among so many people. These, after once acquiring a taste for the stuff are bent on giving it to others.

THIS MAY INTEREST YOU. No one is immune from kidney trouble, so just remember that Foley's Kidney Cure will grop the irregularities and cure any case of kidney and bladder trouble that is not hevond the reach of medicine. F. J. Hill Drug Co., "The Never Substitutors."
